

Title Chief Officer, OE
Location
City/Town Toronto

About Us

Since 1997, the Technical Standards and Safety Authority (TSSA) has delivered public safety services on behalf of the government of Ontario. With headquarters in west Toronto, the TSSA is a self-funded, not-for-profit organization that employs approximately 400 staff across Ontario. The roles within the TSSA are as diverse as the Province we serve. It takes all kinds of people with varied skillsets and backgrounds to meet our organizational goals, but all our employees share a few key traits:

We are passionate about public safety.

We are highly skilled, problem-solvers.

We are collaborators who are invested in the communities we work in.

We are more than employees; we are serving the greater good.

We are committed to life-long learning and development.

We operate with the highest integrity.

The Big Picture – this position in TSSA...

Our Chief Officer, OE promotes public safety for the Operating Engineer's program, achieving program results in support of corporate objectives, championing the organization's vision and priorities and ensuring customer relationship excellence. CO ensures public and industry safety by administering the Operating Engineers Regulation.

So, does this sound like you? If so, this could be your next big opportunity!

What you will do?

Ensuring the effective evolution of regulations that mitigate current and evolving public safety and technology risks

Providing leadership and technical expertise in matters relating to the resolution of investigation processes and legal proceedings

Ensures public safety by partnering with the OE industry (including the advisory council) to promote alignment between the industry's functional needs and the Ontario government's public safety mandate

Timely review and approval of applications for alternate path 1 and 2

Timely review of application for variances

Active participation in development of Canadian and International Standards and Codes related to Operating Engineers.

Ensures OE inspection consistency by identifying issues, documenting and training of the inspectors.

Achieves program results in support of corporate objectives by developing and executing programs and processes; championing the organization's vision and priorities; evaluating and reporting results.

Ensures a positive image of the company by building and maintaining effective relationships by providing timely information to the industry

Implementing risk control plans; reviewing and developing actions to enhance program performance results; demonstrating healthy and safe behaviour and promoting others to do the same

What do you need to succeed?

College Diploma required

1st Class Ontario Operating Engineer Certificate, or equivalent marine or naval certification

8-9 years of relevant experience

Ability to develop or revise provincial regulations.

Ability to make decisions related to customer appeals, dispute arbitration, evaluation of variance applications, committee decisions and regulatory policy

Knowledge of OE Regulations and application of codes

Strong verbal and written (technical paper development and presentations, public relations/public speaking)

Technical Knowledge and the ability to apply knowledge (TSS Act, OE Regulations, CSA and ASME codes and standards, OHS act).

Ability to perform Risk assessment and process applications.

Ability to manipulate electronic data and analyze trends.

Inclusion and Equal Opportunity Employment

TSSA is an equal opportunity employer committed to diversity and inclusion. We are committed to building and maintaining collaborative, caring and positive work environments so that our employees bring their whole selves to work each and every day. We encourage all qualified applicants to apply without regard to race, national or ethnic origin, colour, religion, age, sex, sexual orientation, marital status, family status or disability. Only those selected for an interview will be contacted.

TSSA is pleased to offer accommodations for applicants with disabilities. If you are interested in applying for a job opportunity, or are contacted by us regarding a job opportunity, please advise of any accommodations you may require.

Please note that applicants who receive any conditional offer of employment from TSSA will be required to provide proof that they are fully vaccinated with a COVID-19 vaccine approved by Health Canada as a condition of employment and to maintain their status as fully vaccinated as a condition of continued employment. TSSA will consider individual requests for accommodation by applicants who cannot be fully vaccinated due to grounds protected under the Human Rights Code.
